Industry trend

The role of the Aboriginal and Torres Strait Islander Health Workers (ATSIHWs) is crucial to improving health outcomes of Aboriginal and Torres Strait Islander people. They play a vital role in the primary health care workforce, providing clinical and primary care for individuals, families and community groups.

Aboriginal and Torres Strait Islander Health Workers across Australia work in a variety of environments. While a large majority are employed in Aboriginal Community Controlled Health Organisations (ACCHOs) or the Government Health Sector, many also work within mainstream services such as general practices and other non-government organisations.

Projected five year employment growth to November 2023 is 14%. Aboriginal and Torres Strait Islander Health Worker roles exist in metropolitan, regional and remote areas. Aboriginal and Torres Strait Islander Health Practitioners must be registered with the Australian Health Practitioners Registration Agency (AHPRA). They may perform clinical roles within community controlled and mainstream health organisations. Aboriginal and Torres Strait Islander Health Practitioner is a protected title under section 113 of the National Law.
Course Information

Delivery Method
The Certificate IV in Aboriginal and/or Torres Strait Islander Primary Health Care Practice is delivered through a blended delivery method.

Students are provided with learner resources and assessment handbooks for each unit of competency. The assessment handbooks provide students with instructions on submitting assessments. Please note: all students are required to attend 2 weeks of mandatory block training held in Brisbane.

Clinical Placement
Health Industry Training recognises that an important part of undertaking a qualification in health or community services is the practical component of the course. Work placement provides students with an avenue to apply practical skills in a ‘real life’ environment where you are able to practice the skills and knowledge you have learnt during the course.

It is compulsory for students to undertake clinical placement for the Certificate IV in Aboriginal and/or Torres Strait Islander primary health care practice.

Duration: Approximately 400 to 500 hours based on skills to be demonstrated in the workplace.

Securing Clinical Placement
As a student it is important for you to discuss work placement opportunities with local organisations. Once you have sourced a relevant host employer, Health Industry Training will contact them on your behalf to discuss work placement requirements.

Insurance
Health Industry Training provides insurance to all students undertaking work placement as part of their qualification.

Pre-requisites
As a student you must ensure you have completed the necessary ‘Prior to clinical work placement’ activities listed below before clinical work placement can commence.

- National Criminal History Clearance
- Immunisations and screening

Assessment Methods
Health Industry Training uses a range of assessment methods to ensure sufficient evidence can be gathered to demonstrate you can perform the tasks against the specified criteria. Assessment methods can include:

- Short answer questions
- Projects / Reports
- Case studies
- Scenarios
- Workplace portfolios
- Work placement logbook

Recognition of Prior Learning
RPL considers previous formal study and work experience and then assesses this against the elements of competency to determine competency. Students seeking recognition can apply for RPL on enrolment or throughout the duration of their study.

Credit Transfer
If you have completed a unit of competency within your intended qualification with another Registered Training Organisation (RTO) you may be able to apply for a credit transfer or exemption. A copy of the original transcript must be provided when applying for credit transfer.
Admission Requirements

Entry Requirements
To enrol in the Certificate IV in Aboriginal and/or Torres Strait Islander primary health care practice it is anticipated that you will have completed year 10 or equivalent.

In addition, you are required to provide Health Industry Training with their Unique Student Identifier number.

Minimum Age Requirements
The minimum age for this course is 16 years old. If you are under 18 years of age your enrolment form must be signed by a parent or guardian.

Literacy, Language, Numeracy (LLN) Requirements
Students must have an adequate level of Language, Literacy and Numeracy skills (LLN). Entry into the course requires English proficiency to Year 10 level or equivalent. Students are able to test their LLN skills by completing an LLN test by emailing info@healthindustrytraining.org.

Student Support
Throughout your course with Health Industry Training, you will be provided with a range of support services depending on your individual needs.

One-on-one trainer support: You will be provided with a trainer that has extensive experience and expertise in the course content and the industry sector. Our professional trainers are there to ensure you have a successful learning journey where you can contact them via phone or email.

In addition to your trainer, the administration team can provide you with support including your enrolment, changes to contact details or study plan, progress report and any issues you may encounter throughout your course.

Peer support
Health Industry Training appreciates that distance/online learning can be an isolated experience for some students. To assist with isolation all students have the option to be part of a Facebook peer support group. Peer support groups can be a positive experience where you can study with like-minded people, ask questions relating to your course and build friendships.

Course fees and Financial Support

Abstudy
Health Industry Training’s Certificate IV in Aboriginal and/or Torres Strait Islander primary health care practice is Abstudy approved. To get ABSTUDY, you must be all of the following:

- Aboriginal or Torres Strait Islander Australian descent
- identify as an Aboriginal or Torres Strait Islander Australian
- an Australian citizen and normally live in Australia; and
- be studying an approved course or doing an Australian Apprenticeship

To apply for Abstudy students must contact the ABSTUDY line 1800 132 317. Once approved for Abstudy, students can apply for Away from Base funding.
Away from Base Funding

Away from Base assistance is available to assist eligible ABSTUDY students participate in the necessary academic components of an approved course where that course requires students to travel away from their home or study location for a short period of time.

Away from Base assistance is intended to cover:

- the student’s travel costs to attend the activity,
- the reasonable costs of accommodation and meals while away from the normal place of residence

Funding for Queensland residents

Health Industry Training is proud to be a pre-qualified supplier for the Queensland Government, under the Higher Level Skills program. To be eligible for the Higher Level Skills funding, participants must not hold or be undertaking a Certificate IV or higher qualification. Participants must identify as an Aboriginal or Torres Strait Islander person.

It is a requirement under the Queensland Government funding that all students contribute to the cost of training and assessment services. The fee may be paid on behalf of the student by a third party including an employer but cannot be paid or waived by Health Industry Training. The contribution fee is different for students classed as concession and students classed as non-concession.

Concessional student status applies when:

- the student holds a Health Care or Pensioner Concession Card issued under Commonwealth law, or
- is the partner or a dependant of a person who holds a Health Care or Pensioner Concession Card and is named on the card;

(a) the student provides the Health Industry Training with an official form under Commonwealth law confirming that the student, their partner or the person of whom the student is a dependant is entitled to concessions under a Health Care or Pensioner Concession Card;

(b) the student is an Aboriginal or Torres Strait Islander;

(c) the student is a school student and is enrolled in a VETiS program (may include young people in detention);

(d) the student has a disability; or

(e) the student is an adult prisoner.

Non-concessional student status applies if:

(a) none of the above relates to the student status at the time of enrolment; or

(b) the contribution fees are paid by a third-party including employer, job network provider.

The contribution fees for concessional students is $315.00 per qualification.

For non-concession students or payments made by a third party, the cost is $630.00 per qualification.

Fee-paying

To assist students who are not eligible for funding, Health Industry Training offers financial assistance by allowing students to either:

- pay the cost of the course in full and receive a 10% discount on the full cost of the course; or
- take advantage of our affordable payment plan options (weekly, fortnightly or monthly instalments) (see enrolment form for additional information)
Course Structure

The Certificate IV in Aboriginal and/or Torres Strait Islander Primary Health Care Practice has been packaged to include:

21 units are required to be awarded the qualification including:

- 14 core units
- 7 elective units

The course combines theoretical and practical clinical work placement experience. The theoretical component of the course provides the student with the relevant knowledge required to work in the primary health care sector.

The practical clinical placement experience provides students with the clinical knowledge and skills for students to work in a clinical setting on completion of the qualification.

The table below provides a list of the units in order of competency offered by Health Industry Training. Elective units can be completed in no particular order.

* Clinical Placement Requirement
Limitations on scope of practice

Students are required to complete the core unit HLTAHW020 Administer Medications as part of the Certificate IV in Aboriginal and/or Torres Strait Islander Primary Health Care Practice, however students can only administer medications in line with their state/territory jurisdiction.

Queensland Legislation

In accordance with the Health (Drugs and Poisons) Regulation 1996:

Drug Therapy Protocol – Indigenous Health Worker Isolated Practice Area. ONLY Indigenous Health Workers who have completed all components of the Isolated Practice course and hold Isolated Practice authorisation may administer a controlled drug or administer or supply a restricted drug.

After completing the Isolated Practice course and holding Isolated Practice Authorisation an Indigenous Health Worker must ensure they abide by the following circumstances and conditions as outlined in the Health (Drugs and Poisons) Regulation 1996.

1. An Indigenous Health Worker may only administer or supply a restricted drug or scheduled poison listed in Appendix 1, Column 1 of the Health (Drugs and Poisons) Regulation 1996 only:
   - by a route of administration for the drug stated in Appendix 1, Column 2 of the Health (Drugs and Poisons) Regulation 1996; and
   - in accordance with a Health Management Protocol that meets the requirements in Appendix 3 of the Health (Drugs and Poisons) Regulation 1996

2. An Indigenous Health Worker in an isolated practice area who holds a sexual health authorisation may administer or supply a restricted drug or scheduled poison listed in Appendix 2, column 1 only:
   - by a route of administration for the drug stated in Appendix 2, column 2; and
   - subject to the conditions for the drug stated in Appendix 2, column 3 (if any); and
   - in accordance with a Health Management Protocol that meets the requirements in Appendix 3.

3. The relevant Health Management Protocol and Australian Immunisation Handbook must be available to the Indigenous Health Worker at the time the Indigenous Health Worker is acting under this Drug Therapy Protocol.

4. Before administering and/or supplying a controlled drug or restricted drug or scheduled poison, the Indigenous Health Worker must be familiar with the contra-indication(s) and known side effects of the drug and advise the patient accordingly.
5. If Consumer Medicine Information is available for a particular drug, the Indigenous Health Worker must, where reasonably practicable, offer the information to each person to whom the Indigenous Health Worker administers or supplies the drug.

Chapter 2 [s 59A]

An Indigenous Health Worker, while practising in an Aboriginal or Torres Strait Islander community in an isolated practice area in a specified Hospital and Health Service, is authorised—

a) to obtain and possess a controlled drug; or

b) to administer a controlled drug, under the indigenous health worker isolated practice area DTP, on the oral or written instruction of a doctor, nurse practitioner or physician’s assistant.

Chapter 3 [s 164A]

An Indigenous Health Worker, while practising in an Aboriginal or Torres Strait Islander community in an isolated practice area in a specified Hospital and Health Service, is authorised—

1 to obtain and possess a restricted drug; or

2 to administer or supply a restricted drug, under the indigenous health worker isolated practice area DTP, on the oral or written instruction of a doctor, nurse practitioner or physician’s assistant; or

3 during a declared public health emergency relating to an infectious medical condition—to administer or supply a restricted drug under the communicable diseases DTP; or

4 while an influenza epidemic proclamation is in force—to administer or supply a restricted drug under the pandemic influenza program DTP.

Chapter 4 [s 252B]

An Indigenous Health Worker, while practising in an Aboriginal or Torres Strait Islander community in an isolated practice area in a specified Hospital and Health Service, is authorised to administer or supply an S2 or S3 poison under the indigenous health worker isolated practice area DTP.
Areas of local governments forming isolated practice areas include:

Queensland students should familiarise themselves with the Health (Drugs and Poisons) Regulation 1996 found at: [https://www.health.qld.gov.au/__data/assets/pdf_file/0024/443328/dtp-indig-worker.pdf](https://www.health.qld.gov.au/__data/assets/pdf_file/0024/443328/dtp-indig-worker.pdf)

**Western Australia Legislation**

In accordance with the ‘Medicines and Poison Regulations 2016 Part 7 Division 2:

r.41

**Authorisation of Aboriginal and Torres Strait Islander health practitioners**

(1) For the purposes of section 25(1)(b), a medicine that is a Schedule 2 or 3 poison is a medicine that an Aboriginal and Torres Strait Islander health practitioner, acting in the lawful practice of their profession, may supply.

(2) For the purposes of section 25(1)(b), a medicine that is a Schedule 4 poison is a medicine that an Aboriginal and Torres Strait Islander health practitioner, acting in the lawful practice of their profession, may —

(a) administer; or
(b) possess; or
(c) supply.
The supply by an Aboriginal and Torres Strait Islander health practitioner of a medicine that is a Schedule 2, 3 or 4 poison is subject to the condition that the supply is in the circumstances.

(3) identified in a SASA that applies to the Aboriginal and Torres Strait Islander health practitioner in respect of the medicine. The administration by an Aboriginal and Torres Strait Islander health practitioner of a medicine that is a Schedule 4 poison is subject to the condition that the administration —

(a) is on a direction given under regulation 15(1); or
(b) is in the circumstances identified in a SASA that applies to the Aboriginal and Torres Strait Islander health practitioner in respect of the medicine.

(5) The possession by an Aboriginal and Torres Strait Islander health practitioner of a medicine that is a Schedule 4 poison is subject to the condition that the possession is for the purpose of administering or supplying the medicine in accordance with this regulation.

Student Registration with AHPRA

Under the National Law, all students enrolled in an approved program of study, or who are undertaking clinical training, must be registered as a student with their respective National Board.

Students must be registered prior to the commencement of their approved program of study or clinical training and will remain registered for the duration of study, or until they are no longer enrolled.

Students do not need to apply for registration. Under the National Law, Health Industry Training is responsible for ensuring that all students enrolled in an approved program of study or who are undertaking a period of clinical training are registered with AHPRA.
