# Why Choose Health Industry Training

Health Industry Training is passionate and committed to inspiring students to achieve their career goals and aspirations. If you want to be part of an exciting, fast growing industry, the health and community services sector and Health Industry Training can fulfil that goal.

The health sector is currently the largest employment and fastest growing sector in Australia. The opportunities for Australians are exciting and rewarding. To be part of this industry it is important you select the most appropriate training organisation to ensure you receive the necessary knowledge, skills and practical experience needed to secure a place.

Health Industry Training has many years' experience in the health sector. We specialise in health and community services and keep well informed of the current and future trends occurring in the health and community services sector.

Health Industry Training will help you successfully complete your qualification using an individual, supportive approach by providing you with a training plan individualised to suit your needs and lifestyle. Study your way, place and pace with the support of a personal trainer.

It is recommended that you read this course outline in conjunction with the student handbook that is available on the Health Industry Training website.

*Inspiring students to achieve!*

Economic development manager

---

**Assessment Methods** Short answer questions  
Projects  
Case studies  
Workplace portfolio  
Research reports

---

### Industry trend

Community Development workers contribute to the development of communities through social change processes. The work may occur within and across social, environment, economic, arts and culture, and recreation sectors.

This work may take place in domestic and international contexts. For instance, Aboriginal Project Officers (Development Assistance) are engaged by a charitable organisation to provide services for Australian-based projects aimed at alleviating disadvantage among Aboriginal and Torres Strait Islanders.

They may coordinate field-based projects, manage the budget, or participate in the design, development, and implementation or monitoring of community development plans.

Employment for this occupation rose slightly in the past five years and rose strongly in the long-term (ten years). Employment for Community Development to November 2020 is expected to grow moderately.

# Course Information

## Delivery Method

The Diploma of Community Development is delivered through a blended delivery method.

Students are provided with learner resources and assessment handbooks for each unit of competency. The assessment handbooks provide students with instructions on submitting assessments.

## Assessment Methods

Health Industry Training uses a range of assessment methods to ensure sufficient evidence can be gathered to demonstrate you can perform the tasks against the specified criteria. Assessment methods can include:

- Short answer questions
- Projects / Reports
- Case studies
- Scenarios
- Workplace portfolios

## Recognition of Prior Learning

RPL considers previous formal study and work experience and then assesses this against the elements of competency to determine competency. Students seeking recognition can apply for RPL on enrolment or throughout the duration of their study.

## Credit Transfer

If you have completed a unit of competency within your intended qualification with another Registered Training Organisation (RTO) you may be able to apply for a credit transfer or exemption. A copy of the original transcript must be provided when applying for credit transfer.

# Admission Requirements

## Entry Requirements

To enrol in the Diploma of Community Development it is anticipated that you will have completed year 10 or equivalent.

In addition, students are required to provide Health Industry Training with their Unique Student Identifier number.

## Minimum Age Requirements

The minimum age for this course is 16 years old. If you are under 18 years of age your enrolment form must be signed by a parent or guardian.

## Literacy, Language, Numeracy (LLN) Requirements

Students must have an adequate level of Language, Literacy and Numeracy skills (LLN). Entry into the course requires English proficiency to Year 10 level or equivalent. Students are able to test their LLN skills by completing an LLN test by emailing [info@healthindustrytraining.org](mailto:info@healthindustrytraining.org).

## Student Support

Throughout your course with Health Industry Training, you will be provided with a range of support services depending on your individual needs.

**One-on-one trainer support:** You will be provided with a trainer that has extensive experience and expertise in the course content and the industry sector. Our professional trainers are there to ensure you have a successful learning journey where you can contact them via phone or email.

In addition to your trainer, the administration team can provide you with support including your enrolment, changes to contact details or study plan, progress report and any issues you may encounter throughout your course.

## Peer support

Health Industry Training appreciates that distance/online learning can be an isolated experience for some students. To assist with isolation all students have the option to be part of a Facebook peer support group. Peer support groups can be a positive experience where you can study with like-minded people, ask questions relating to your course and build friendships.

## Course fees and Financial Support

### Fee-paying

To assist students who are not eligible for funding, Health Industry Training offers financial assistance by allowing students to take advantage of our affordable payment plan options (weekly, fortnightly or monthly instalments) (see enrolment form for additional information)
